EFFECTIVE 1st August 2009

ACRES FARM

ACRES FARM • BRADFIELD • READING • RG7 6JH • UK
TEL: 0118 974 4305 • FAX: 0118 974 4012
www.acresfarm.co.uk

Styles

1 To work out the cost of your fender:

Select a combination of style and base from all those shown on pages 2 to 4 eg: if you would like a 'STRAIGHT (SINGLE BASE)' style fender with the 4 x 2½ in. base shown immediately to the right then tick the box as shown:

Brass £1770

All the prices shown on pages 2 to 4 are for complete fenders with standard uprights and standard width leather seats, the fender base having inside dimensions not exceeding 5 ft x 2 ft (1525 x 600 mm). For larger sizes, please add 10% to the price for each additional foot (300 mm) or part.

Then work through the order form ticking any extra options that you would like your fender to have. Transfer the various totals under each heading to the 'Cost Estimate' on the far right of the form, add them all up and include VAT if necessary. The figure in the 'Total Cost' box will be the estimated cost of your fender.

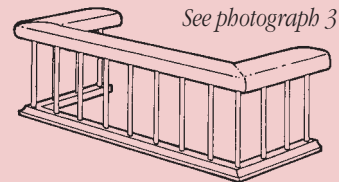

2 The styles listed: are those that we are most often asked to make, but anything within reason can be done. For example, photographs 23, 26 and 27 in the brochure were all made to customers' unique requirements. Having our own workshops allows us a high degree of control over detail. If you would like us to quote for anything not shown here, do please ring me, and also, of course, if anything is not clear. We are always very happy to discuss any particular requirements that you might have.

3 To order a fender: please tick all the options that you would like, provide the measurements requested on the Measuring Sheet, fill in the delivery details at the end of this form and return both forms to us. I will then confirm receipt of your order and the deposit, confirm the price and give you an expected completion date. I will also ring you if I see any potential difficulties, or if something is unclear, but I have never yet had a problem which has not been satisfactorily overcome.

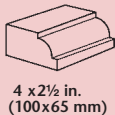

4 Measuring service (UK only): Once you have decided to order, if you would like me to come and measure up, please return the postcard or ring me. Nothing need be completed on the forms — just consider some of the possible features and options, and we can discuss the details while I am with you.

5 Lastly: I have enclosed two measurement sheets — one to return to me and one to practise on (if necessary) and to keep. Measuring is not as difficult as it might appear and I hope you will find the notes in the Measuring Sheet helpful.

STRAIGHT (SINGLE BASE)

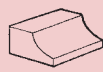

Available with these base sections:

4 x 2½ in.
(100x65 mm)

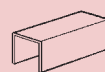

Brass:	£1770
Satin Black Steel:	£1355

Mahogany:	£2525
White Eggshell:	£1745

Price adjusted for size over 5 x 2 ft £
(see under note 1)

Miscellaneous

PROTECTION AND SURFACE FINISH

Brass fenders are highly polished after manufacture. If not lacquered, or regularly polished, brass will darken naturally over time. Fenders need to be polished regularly if they are to remain bright.

To avoid the need to polish, we can protect the finish with a clear lacquer which is sprayed on and then oven-baked at very high temperature. This gives a long lasting finish, but needs to be treated with care as it is susceptible to damage from, for example, steel heels. Brushed steel will never tarnish, and our satin black finish on steel fenders is oven-baked.

A further alternative on Brass Fenders is a Bronze finish.

We can paint a steel fender in any colour, dark reds and greens being the most frequently requested.

Clear stoved lacquer: £185	
Bronze finish: from £700	

See photograph 25

Painting special colour: £170

Brushed Steel seat guards:	£150	
----------------------------	------	--

Satin Black seat guards:	£120	
--------------------------	------	--

INFILL PLATES

(Please see the Introductory Notes on the Measuring Sheet).

These are sometimes needed if the hearthstone is not very large, or if you want the fender to extend further into the room. They are attached to the base of the fender and cover any gap between a hearthstone and the fender.

Brass:	from £80	
--------	----------	--

Satin black steel:	from £55	
--------------------	----------	--

BLOW POKER

This is an amusing 'weapon' for real fires and can also be used on barbecues. It is a tube about 3 feet long and an inch diameter, in solid brass. One end has a mouthpiece similar to that on a trumpet, through which you can blow to get the fire to burn up. The air comes out at the other end which is placed near the fire, similar to a bellows, but using puff. The 'fire' end also has a point so that it can be used equally well as a poker.

The blow poker can be ordered separately (just tick the top box and return the order form with your cheque). This price is inclusive of VAT and delivery in the UK (allow 14 days for delivery).

If you are ordering with a fender, please tick the lower box.

Blow poker only (incl. VAT & delivery):	£42.00	
---	--------	--

Blow poker (ordered with fender):	£35.00	
-----------------------------------	--------	--
